## Abstract

The aim of this study is to find out the real status of achieving the educational values when performing the procedure of Alzakat and its impact on the behavior of the staff and local committees and payers and the payees with reference to their practice and application and to the confluence of theory and application.

The present researcher has chosen Al Rahad Al Hawataa locality for its distinguished geographical location and because it includes different environments for the population of the study where payees and the basic Zakat committees are expected to deal weakly in reference to the principles of the Islamic Values.

The study used the descriptive and the analytical method, the present researcher used questionnaires and interviews as instruments of the study.

The population of the study includes the staff of Al Zakat department, the payers, the payees, and basic committee in Al Rahad Alhawataa locality.

The current study has reached the following results:

- (1) Most of the staff believes that they are more interested in the job, while a minor group works for sake of Allah.
- (2) The importance of the political values of the workers in Al Zakat department implied in the power and the personal influence which the government to collect Al Zakat.
- (3) Over reaction of the payees to gain their portions.

(4)The political point of view of the basic Zakat committee has negative effect on the payees portion.

the study recommends the following:

1. Reactivation of the governmental mass- media to enlight the citizens.
2. Reactivating of social control.
3. Rehabilitating of basic Zakat committees.
4. Stress control over those who escape from paying their Zakat duties.
